1 The defendant has impersonated
2 the Federal Government. The defendants
3 delusional claim of being a contractor
4 for the department of defense is false
5 and incorrect. A third party inside the
6 DoD and DoJ, there is no such thing.
7 These departments are spelled in all capital
8 Letters, DEPARTMENT OF DEFENSE &
9 DEPARTMENT of JUSTICE. The defendant
10 bringing case sensitive practices to
11 this court and the impossible belief
12 that such could actually exist brings
13 disrespect to the court and parties
14 involved. This is a very clear fact, because
15 in November of last year I filed a case
16 against the DEPARTMENT of DEFENSE
17 just to verify my statements. I served
18 the DEPARTMENT and the Attorney General
19 in Washington DC. Several months went
20 by and no response from either party,
21 I knew then my problems were not
22 with them.

1
2 Defendant served a different
3 ^{Insert ¶#} version of the (motion to dismiss)
4 to me, versus the one supplied to the
5 court which dictated the court on
6 their contractor status. I was given no
7 way to know or defend myself on that
8 matter

9
10 The defendants actions are unacceptable
11 ^{Insert ¶#} as they are trying to avoid the
12 responsibility of paying the plaintiff
13 monetary relief for damages done. The
14 plaintiff clearly intitled to the monetary
15 relief requested in the complaint.

16
17
18
19
20 The subject matter of this case is
21 ^{Insert ¶#} Open-Source Software. The statute of
22 limitations on open-source software is three
23 years. The defendant has supplied open-source
24 on the plaintiff and the Orange county
25 public library account from 11/2020 - 11/2023
26 which was all done illegally. I have
27 exhibits available to prove time stamps as well.

18

19 Source code supplied to prove open-source

20

21 two types of source code, one

22 is mobile platform and the other

23 windows platform. Almost 40 pages

24 total. Source code is generally 4 pages

25 not 40 pages. Only open-source software

26 can create this much code. Looking at

27 the source code you can tell, there is no possible

28 way to get to the internet

1 On page 6 of the source code, meta name =
2 cm_products content = [https://authoring-docs-](https://authoring-docs-microsoft.poolparty.biz)
3 [microsoft.poolparty.biz](https://authoring-docs-microsoft.poolparty.biz). The term poolparty
4 is used by the defendant to show there
5 success in getting away with contractor status,
6 this is how they rub it in your face on
7 your source code. Notice how all the
8 site info is in lower case because this
9 is all third party look-alike sites created
10 by the defendant. Everything is case
11 sensitive practices with the Foundation.
12 Notice SR-only, which is primary and
13 I'm secondary link. SR-only refers to
14 my parents windows account that is
15 merged with mine. They run 2 separate
16 apj's at the same time, and is supported
17 and currently running right now on Firefox
18 They merged our accounts together in
19 11/2023 so when the statute of limitations
20 on my account ran out, they could continue
21 applying open source software on me
22 through my parent account allowing
23 my parents to have internet access
24 and completely block any and all use
25 of the internet for me.

1 They took over my parents windows
2 account in 7/2021 and left it dormant
3 until 11/2023 just so they could continue
4 there open source Hate-crimes on me.
5 Talk about pre-meditated. Long term
6 malicious and vindictive intent. It's
7 intentional infliction of emotional distress.
8 The only way it could be worse, you would
9 have to take the persons life. In December
10 it will be 6 years of there hateful
11 open-source campaign against me. Through
12 there use of open source it means
13 my civil rights are totally taken from me.
14 It means I can not have a phone,
15 us a computer, make a call or send a
16 message, no use of the internet at all,
17 not even at the public library, can not
18 look for work, apply for a job, file
19 a grievance, file a complaint, send
20 feedback, can not read trouble codes
21 on my vehicle cause they block bluetooth
22 low latency connections as well, change
23 the firmware on code readers, scanners
24 and digital cameras. Also, tv programming
25 and cable tv is controlled by open source.
26 They only let you ~~watch~~ watch old reruns of
27 people who are dead and all channels are
28 interactive which is really creepy.

5B

1 So as explained the Foundation has
2 complete control of my life. I can
3 do nothing, in fact it is so evil and
4 hatefull I can not even rent a storage
5 unit at Public storage. Everything in my
6 life is blocked and taken away from
7 me. The Foundation is from the Northern
8 District, every court case involving them
9 and Pro SE Litigants involves coercive
10 type control, hate, computer crimes, cyber-
11 bullying, hate crimes, and extorsion
12 threats just to name a few. In the
13 Northern District they are known as
14 SCUM of the WEB. The biggest
15 decision the Foundation ~~st~~ chooses to
16 make everyday is who can and can't
17 use the internet, and that is just
18 wrong. This issue is real and true, living
19 it everyday is worse then a heart-attack.
20 Recently diagnosed with vertigo and
21 extreme high blood pressure because of
22 what they are doing to me everyday.
23 I think it's gonna kill me before I can
24 get a court order to fix this issue.
25 Nobody should have this level of control
26 over a person, not even a spouse. I'm pleading
27 to the court for help in this matter, stop
28 open source software and take responsibility
for these hate crimes and malicious actions
